IS OFFICIAL SEED TESTER

Mr. Smith Yowell has resigned his position with the Danville Ice and Coal Company and has been succeeded in the downtown office by Joshua Bell. Mr. Yowell has been made official seed tester and Federal agent for Boyle county and will make a very vigorous campaign to assist the farmers in securing and planting corn that will come up. The most of the corn this year is of very inferior quality and is absolutely useless for seeding. Mr. Yowell will probably have an office in the court-house.—Advocate.

THE PNEUMONIA SEASON

The cold, damp weather of March seems to be the most favorable for the pneumonia germ. Now is the time to be careful. Pneumonia often results from a cold. The quicker a cold is gotten rid of the less the danger. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. As to the value of this preparation, ask anyone who has used it.

"The I. J. is always welcome, so let it come every time. I glory in the effort of your county officers to put the lazy loafers to work and make them earn a support instead of gambling with some green-horn, who has no more sense than to take a chance on such an uncertain proposition," writes H. A. Pleasants from Groom, Texas, as he encloses his subscription.

John I. VanArsdale, the Harrodsburg real estate man, has sold to Minor Corman, of Louisville, for Chas. Smith the Mrs. Nannie B. Moore farm of 173 acres for \$28,000.

MEETS COURT'S ENDORSEMENT

The members of the Fiscal Court of the county desire to express their hearty approval of the plan proposed by B. W. Givens and others, for the repair of the roads. The people of the county are assured that the Fiscal Court will do every thing possible within the limited revenue at its disposal, to repair the roads, but the present revenue is not sufficient for the purpose and unless the people do join in the movement suggested and contribute work, teams and materials, an additional tax will be necessary. The Fiscal Court desires to avoid any additional tax. So it calls upon and urges all of the people to join in this great movement for the betterment of the roads and contribute at least one day's time and such teams and material as may be necessary during the week, beginning next Monday, March 18 and ending Saturday, March 23.

The work, teams and materials furnished will be devoted, under the supervision of the Road Overseer for that particular road, to repairing the road used by the people so furnishing their time and material. This is a great and urgently necessary movement, and the Fiscal Court calls upon all of the people all over the county, whether on turnpikes or county roads, to join in it, and so make our "Good Road Week," a perfect success.

Let there be no "Slackers." Let the people upon every road, "Go Over the Top."

By order of the Fiscal Court of Lincoln County, T. A. Rice, Judge.

UGH! ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

The Moment "Pape's Dipsen" Reaches The Stomach All Distress Goes

Do some foods you eat hit back—taste good, but work badly; ferment into acids and cause a sick, sour gas stomach? Now, Mr. and Mrs. Dyspeptic, jot this down: Pape's Dipsen helps neutralize the excessive acid in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get relief in five minutes, but what pleases you most is that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Dipsen" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Dipsen" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Dipsen from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any stomach disorder, due to acid fermentation.

WIND TOOK TOP OFF

While Mr. W. L. McCarty was in the West End showing a farm to a customer Saturday the heavy wind took the leather top off of his Ford as nicely as it could have been done with a pair of scissors. Otherwise the car was not injured.

Slavonic societies in Mahoney City, Pa., which heavily fine members who do not attend the funerals of members, abolished the custom to permit the men to remain at work in the mines hereafter. Six men to act as pallbearers will be selected by the societies.

Five persons are known to be dead, several others are unaccounted for, scores are injured and hundreds of homes, buildings and barns are demolished or damaged as the result of the cyclone that swept Ohio Saturday night. The property damage is estimated at between \$1,000,000 and \$5,000,000.

Admiral von Diedericks, who attempted to block Dewey's squadron at Manila Bay and who, in return, got a cannonball over his German flagship, is dead at Baden Baden. In 1914 Admiral Dewey, in his book, recounted the incident, which brought forth a heated denial from the German officer.

Y. M. C. A. huts will spring up in all the munition plants and shipyards in the East, if plans now under consideration are followed. These huts are to be similar to those in the war zone and at the army camps, and their purpose is to preserve the morale of the workers by providing comforts and recreational facilities.

The high cost of living is apparently threatened with a tremendous slump. There is every reason to believe that food prices which for several years have been mounting to a dizzy height have reached their anvil and will decline henceforth. This is believed to be particularly true of two important food staples—potatoes and beans.

Scathing denunciations of the Scandinavian countries as unneutral now fill the German press. The articles, it is evident, are inspired by the German Government, and something of the annexation policy is being put out. The diatribes declare that Germany will keep the Aaland Islands which will become another Heligoland, and that Finland will be a minor German kingdom.

Legislation authorizing the sale of all enemy property in this country requested by the alien property custodian to sever forever the hold of Germans in Germany upon vast commercial and industrial enterprises in the United States, was approved by the Senate. An amendment empowering the President to acquire title to the German steamship companies' docks and wharves at Hoboken, N. J., also was accepted.

A BILIOUS ATTACK

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes gas, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

DEATH OF LITTLE BOY

The 11-month-old son of Robert Hatfield died at Detroit on the 5th and was brought to the home of his grandfather, E. B. Hatfield, near Highland, and buried Saturday afternoon at Mt. Moriah church. Mr. J. C. McClary made an appropriate talk.

PAYS 13 CENTS FOR HEMP

Col. Joshua Jones is so confident that 11c per pound is not a good price for hemp that he has bought about 80 acres at 13c, going the big buyers two cents better. He bought the crops of Will and Joel Newell and John Jones at that price.

LOTS OF COAL AND COKE

Two double-header freights, pulling 101 cars of coal and coke, passed North Sunday. Looks like that ought to help out a little.

Besides his wife, who was Miss Martha Bell Gooch, daughter of Milton Gooch, he was survived by one daughter and six sons. For several years the deceased was a member of the Baptist church at New Salem. He was a straight-forward, honorable, good man and his death is a distinct loss to the community. The funeral services were held at the home of the deceased at 10 o'clock Tuesday morning, when Rev. K. S. Martin, of Middleburg, delivered an appropriate discourse. The burial followed in the Sims cemetery near Kings Mountain at two o'clock Tuesday afternoon. Much sympathy is extended to the family for the loss of their loved one. The deceased had been in ill health for many years, but in a very serious condition for the past month. A Friend.

Chamberlain place of 160 acres for \$4,000 and to a North Carolina party the farm belonging to Prof. Benze, and containing 42 acres; for \$1,775. Col. Thompson is selling his share of the earth and is clever enough to give the advertisement he has done in the Interior Journal its share of the credit for it.

COMPLIMENTS ASSOCIATION

T. W. Hart, appraiser for the Federal Loan Bank at Louisville, who was here last week, says that the Federal Loan Association at Stanford was the best cared for and most conservative in the four States comprising this district—Kentucky, Tennessee, Ohio, and Indiana. As the number of the Stanford Association is 37, it will be seen that there are a good many associations in this State, to say nothing of the many in the other three States. Hon. W. H. Shanks is president of the Lincoln County Association. Mr. Kelly J. Francis is secretary-treasurer, and Dr. W. F. Watkins is vice-president.

SUPERVISORS IN SESSION

The Lincoln County board of supervisors, composed of Messrs. W. T. Tucker, J. B. Honaker and W. S. Embury, began their work Monday

BIGGEST COURT IN YEARS

Monday's court day was one of the very biggest that Stanford has had in years. A large crowd was on hand and business in all lines was rushing. There were only about 500 cattle at the Nunnelle Stock Pens, but every hoof was sold and many changed hands two or three times during the day. Cattle dealers estimate that as high as 13 cents was realized for some of the very best steers, while a bunch of 25 good ones were weighed to a well-known buyer at 11 1-2c. All classes of cattle were in demand and buyer and seller got together quickly. An excellent grade of cattle was offered, and as grass is coming the demand was great and the prices high. A large number of mules were sold during the day and like cattle they brought big prices, \$175 to \$250 were the ruling prices, some extra good ones going over the latter amount. Good horses were also in demand, as was shown by the 25 Illinois mares offered by Joe Jordan selling all the way from \$200 to \$285. There was very little demand for plug horses, however. Horse and cattle buyers were here from many counties and it was a scramble among them to get to the owners first. The merchants and other business men fared well during the day and March court of 1918 will long be remembered as being a banner one.

YOUNG WIFE KILLED

Mrs. Ollie Hurst, who was Miss Mabel Gum, was almost instantly killed when a Chesapeake & Ohio train struck the auto she and her husband, sister and father were riding in near Brighton Station, Fayette county, Sunday afternoon. The husband was badly bruised, little Miss Anna Campbell Gum was found under the wreck but was not badly hurt, while the father, W. H. Gum, escaped injury. Mrs. Hurst, as stated above, was Miss Mabel Gum. She was a relative of the family of John Lutes, of this city, and had frequently visited them and Mrs. Harry D. Frye, of Hubbe. She was a charming young woman and made many friends during her visits here who are grieved at her untimely death. She was only 22 years old and been married less than a year.

P. C. WEBBER DEAD

Mr. P. C. Webber died at his home near McKinney Saturday morning after a protracted illness, aged 49. Deceased was born in Carroll county, this State, and moved to Lincoln about a year ago. Mr. Webber joined the Baptist church early in his boyhood and died in that faith. The burial occurred in the McKinney cemetery in the presence of quite a crowd of the friends of the family.

BIG AVERAGE FOR BIG CROP

The following is taken from the Danville Advocate: "B. L. Berry, of Hustonville, was in Danville yesterday selling some more of his tobacco. To date he has been paid through the Peoples Tobacco Warehouse the sum of \$12,777 for his offerings and he still has about \$4,000 worth to be sold. He cultivated thirty-eight acres of tobacco and the whole crop averaged more than 32 cents a pound and will bring him about \$17,000. He thinks the Danville market the best in Kentucky and expects to sell every stalk of his crop on the local breaks.

HEMP PRICE DECIDED ON

The price of the 1917 crop of hemp was fixed Monday at a meeting of the Kentucky Hemp Association at Lexington. Kentucky rough prime, 15 cents; Kentucky second 13 1-2c, and tow, 10 cents. The growers are to bale the crop. Ten million pounds of hemp was represented at the meeting. Officers were elected as follows: W. M. Robb, Winchester, president; Claude Williams, Pisgah, vice-president, and T. C. Geary, Frankfort, secretary-treasurer. The above prices are f. o. b. Lexington.

ILLINOIS MARES SELL WELL

Joe Jordan, the veteran horse buyer and seller, sold 25 Illinois mares at auction here Monday afternoon at \$210 to \$285. One extra good pair of strawberry roan mares was bought by Guy Hundley, of Boyle, for \$570. E. P. Woods bought a pair of grey mares for \$532.50. It was the best lot of big mares ever seen together in Stanford and they went like hot cakes. George D. Sneakers, the well-known Paris auctioneer, sold them.

LEASES OUT OPERA HOUSE

Manager C. Hays Foster, who has given the Stanford people the highest class pictures obtainable and a good traveling show whenever he could, has leased the Stanford Opera House to George Owens, of Mt. Vernon, who will take charge Monday. Mr. Owens is experienced in the picture business, having successfully managed a picture show house in his home town for years.

MR. MOORE'S WILL PROBATED

The will of Mr. D. R. Moore was probated Monday. He asks that his property be equally divided among his children and that his son, Collins Moore, and son-in-law, Charlie Nunnelle, be made executors. The instrument bears date of May 9, 1916, and W. T. Richardson and Louis Kriener are witnesses to the signature.

POURED OUT THE BOOZE

Chief of Police J. S. Bonta and City Judge Preston, of Junction City, had a booze pouring the other day. They poured into the gutter several gallons of the "evil stuff" they had taken from bootleggers. They are making that class of individuals live hard at Junction City.

THE LATEST WAR NEWS

The American forces in Lorraine have gone over the top and gained the second line of German trenches. Three savage raids were carried out against the German positions. A heavy barrage fire was opened up on the raiding parties, but American artillerymen answered shot for shot, and a number of the enemy guns were silenced. Three raids were attempted in the Orientieres sector, but the Teutons were repulsed. The resignation of Trotsky, it now appears, followed a quarrel between the Russian Foreign Minister and Premier Lenine. There has been fighting on a large scale in Italy.

President Wilson has sent a message of sympathy to the Russian people through the Congress, with a pledge that the United States will avail itself of every opportunity to aid them in driving out autocracy and restoring Russia to her place in the world with complete sovereignty and independence.

The War Department is determined to withhold the names and addresses of soldiers killed or wounded or who die at the front. One of its pointed out, is issued at the request of the French Government, and seeks to prevent information of value getting to the enemy.

Though indications point to an early beginning of the much-advetised German offensive in the West, allied nations are confident that the Hun will get more than he bargained for. On all this line patrol engagements are growing more serious daily.

Nine persons were killed and thirty injured in the German raid on Paris Friday night. One of the raiding machines was destroyed.

Germany's drive in Russia is an effort to shift the center of gravity, but the key positions of the war still are in the West, according to Secretary Baker's review of the week's activities. Mr. Baker points out that Germany is not desirous of going against the strong lines of the Allies in France, and would like to shift operations to some other section. But the war must be won in the West, says the review.

G. A. EUBANKS' WILL PROBATED

The will of George A. Eubanks, whose death was reported in this paper some weeks ago, was probated Monday. The instrument bears date of Feb. 28th, 1918, and the witnesses are J. W. Hoskins and Dr. W. J. Childress. It orders that all debts be paid and that the widow be given control of everything, but that what money is left be invested in real estate. Two hundred dollars each is bequeathed to his daughters, Mrs. Marshall Herring and Miss Fanny Eubanks. At the death of his widow all the property is to be sold and the money divided equally between the three daughters, the two mentioned above and Mrs. Mattie Crites.

ELEVEN LIVES SNUFFED OUT

Eleven lives were snuffed out in a twinkling and some 40 or 50 people were more or less injured at Winchester Saturday night when the high wind blew a big wall over on the Pastime picture show. A fire of the day before had left the wall standing and when it toppled over on the picture show, the latter was crowded with people who had gathered to see a "Wild West" picture. Most of the killed were young people. The disaster was the worst in the South since the fearful Shepherdsville wreck, and as a result there were 11 burials Monday in Winchester.

PROF. C. A. KEITH PLEASES

Prof. C. A. Keith, of the Richmond Normal School, delivered an address at the Presbyterian church Sunday morning in behalf of the \$300,000 drive, being made by the Southern branch of that church for benevolence for the ensuing year, and made such a fine impression there was a universal demand for him to speak from the same pulpit at the union services Sunday evening. Prof. Keith is a Rhodes graduate of Oxford University and is a speaker of great force and ability.

FOR THE PROTECTION OF OUR DEFENDERS

The soldiers' and sailors' civil rights bill just passed by congress relieves those who are fighting our battles for us of the cares that might destroy their peace of mind had they been permitted to be charged upon by all who would profit by their earnings. It is a most liberal bill and practically frees the country's defenders from financial cares at home. Among the provisions of the bill are that no law suits can be settled against a soldier in his absence and if there were any pending against him when he joined the service they must be postponed until he can give them personal attention on his return. A soldier's wife cannot be evicted for failure to pay rent where it does not exceed \$50 a month and if the landlord attempts eviction he can be heavily fined. If he is buying a home on the installment plan there can be no fore-closure until a court decides after special investigation that the circumstances warrant it, when it may order all payments refunded or stay proceedings. Insurance policies can not be invalidated for non payment of the premium till one year after the close of the war and if he fails to pay taxes on his property the usual penalties will not be enforced. There are other provisions to safeguard the interests of the fighting man, all of which will show him how much his services are appreciated, and which will tend to make him a better soldier for the cause of a country that desires to protect him in every way. No country was ever so mindful of her defenders' welfare in the training camps, where everything is looked after with the greatest care for the prevention of disease and the caring for those who become ill. The boys receive a great deal more medical attention than at home and it is only in rare instances when where brutes succeed in becoming officers that they are not given every proper consideration. The great country is doing nobly by its brave defenders.

Mrs. Beachamp, the W. C. T. U. woman, who has done much for prohibition of the whisky traffic, made a speech in Chicago last week in which she severely criticized the Red Cross for encouraging soldiers in the filthy and disgusting habit of using tobacco by supplying them with it. Not being a user of the weed and therefore not competent to judge of its soothing and comforting effects, we are here to say that if the brave boys do enjoy a smoke or a chew we want them to have it. If the good lady does not want to spoil her work for liquor prohibition she will not try to start a crusade for the prohibition of tobacco, nor attempt in any way to discourage the noble efforts of the Red Cross to aid to human comfort. At present it is almost treasonable to do so.

When State Inspector and Examiner Nat B. Sewell, in response to a resolution asking him if there was any waste of the public money by officials, told the Legislature that it was the worst waster of money in the State and that the members ought to be paid only for the time they worked, he stirred up a hornet's nest which is still swarming around his head. A resolution to have the auditor examine his department was introduced the other day, but even if adopted it won't scare that competent official. That his accounts are as straight as a string, no one who knows him will gainsay.

The bill placing the hotel inspection, the tuberculosis commission and the drug and food inspection under the State Board of Health, which has already passed the Senate unanimously, passed the House 71 to 16, and only needs the governor's signature to make it the law. In addition to its many other features, it empowers the counties to vote a mill on the \$100 to establish and maintain a county board of health. The bill will, it is said, put J. N. McCormack out of commission, after he has for thirty years dominated the board, subject to much criticism and some times investigation.

Charles M. Meacham evidences a good deal of courage in changing the Hopkinsville Kentuckian from a tri-weekly to a daily in a little town like the capital of Christian, which already has a daily, but here's betting that the old veteran will make a success of it and here's wishing it will prove the crowning glory of his old age.

State Banking Commissioner Speer reports that fifty State banks bought none of the Liberty Bonds and that the entire holdings of the State Banks in these securities are \$6,014,326.19. There is not much evidence of patriotism among some of our moneyed men, who fight neither in person nor with their money.

Organized labor of New York has not added to its honors by protesting against the conviction and sentence of death against Mooney, the San Francisco bomb thrower, who killed ten persons. If ever a man deserved death, this leader of the so-called Industrial Workers of the World, ought to be ham-strung and quartered.

But seven legislative days remain of the present General Assembly, which will go into history as having accomplished much for good, thanks to Gov. Stanley, who was in supreme command and to whom great credit is due for directing legislation that will accrue to the benefit of the State.

The fashion notes say that our old friend, the slit skirt, which created so much rubber-necking when it was in vogue a few years ago, is to be in evidence again this spring and summer, thus proving that there is a silver lining to the dark clouds of war that envelope us.

W. H. Leonard has 60 ewes, 37 of them having 63 lambs. Five of these ewes have fifteen lambs. W. L. Graham sold this week to Clay Coleman a registered gelding for \$325. Ison Brothers sold seven nice mules the past week at an average of \$175. H. T. Gordon bought Monday twelve yearling black steers from W. C. Carpenter at \$56.60 a head. They were fine ones.—Harrodsburg Herald.

Judge Charles A. Hardin has been invited to be one of the speakers at the unveiling of the Service Flag of the Knights of Pythias Lodge at Stanford on Thursday evening, March 21. A number of the members of this lodge have gone to fight for liberty and democracy and their fellow members will honor them in this way. A Hooverized banquet will follow the unveiling.—Harrodsburg Herald.

Paris had a big court day crowd Monday and merchants in all lines of trade did a rushing business. More than 100 mules were on the market, most of which changed hands at prices in pairs from \$350 to as high as \$650. Nearly 100 horses were on the market, the good kind going at from \$150 to \$300 per head, and plug horses from \$25 to \$90.

GIRLS! IT'S YOUR STEP THAT ATTRACTS!

Says Women Pay Too Much Heed To Their Face Instead of Their Corns

Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove. Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.

A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without pain. This freezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin. Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

"Gots-It"—2 Drops— Then to the Dance!

"Goodnight to Corn Pains—Corns Peel Off With 'Gots-It'."

"Say, girls, you can laugh at tight shoes, or damp, corn-pulling weather, big bumpy corns, calluses on the soles of your feet, corns between the toes, hard and soft corns,

"It's All Off With This Pierce Corn New—'Gots-It' Is Magic."

If you will just touch the corn or callus with a few drops of "Gots-It," what a blessed relief it gives to corn pains! You won't limp any more; you can enjoy the dance every minute. Then to see how that corn or callus will come right off complete, like a banana peel and without the least pain, is just wonderful. "Gots-It" is the biggest seller among corn removers in the world today, simply because it is so wonderfully simple and always works. Be sure you get "Gots-It!"

BANISH CATARRH

Breathe Hymeol For Two Minutes And Stuffed Up Head Gets Relief

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hymeol.

It will clear out your head in two minutes and allow you to breathe freely. Hymeol will end a cold in one day, it will relieve you of disgusting snuffles, hawking, spitting and offensive breath in a week.

Hymeol is made chiefly from a soothing, healing, germ killing antiseptic that comes from the eucalyptus forest of inland Australia where catarrh, asthma and consumption were never known to exist.

Hymeol is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete Hymeol outfit, including inhaler and one bottle of Hymeol costs but little at druggists everywhere and at The Penny Drug Store. If you already own an inhaler you can get an extra bottle of Hymeol at druggists.

MR. SLICE O'BREAD

I am a Slice of Bread.
I measure three inches by two and one-half, and my thickness is half an inch.
My weight is exactly an ounce.
I am wasted once a day by 48,000,000 people of Britain.
I am "the bit left over," the slice eaten absentmindedly when really I wasn't needed; I am the waste crust.
If you collected me and my companions for a whole week you would find that we amounted to 9,380 tons of good bread—
WASTED!
Two Shiploads of Good Bread!
Almost as much—striking an average—as twenty German submarines could sink—even if they had good luck.
When you throw me away or waste me you are adding twenty submarines to the German navy.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious,
Clean Little Liver and
Bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at tongue. Mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." 1t

Chamberlain's Cough Remedy A Favorite For Colds

J. L. Easley, Macon, Ill., in speaking of Chamberlain's Cough Remedy says, "During the past fifteen years it has been my sister's favorite medicine for colds on the lungs. I myself have taken it a number of times when suffering with a cold and it has always relieved me promptly."

DEATH OF D. R. MOORE

This splendid notice of the death of Mr. D. R. Moore, one of Lincoln county's best men and citizens, appeared in the Danville Messenger:

Many of our readers will be grieved to know that Mr. David R. Moore is dead. His death occurred at his late home in Lincoln county about four o'clock Thursday morning. The death of Mr. Moore removes from his native county one of its best, most popular and substantial citizens. His death occurred on the old Moore homestead, where he was born almost eighty-two years ago, and had spent his entire life. The writer of this sketch has personally known Mr. Moore for many years. Knew him both in a social and business way, and has said of him while he lived many times and repeats it following his death: "David R. Moore was honest to the penny. If it is possible in this life for an individual to be too

good in any respect (and we believe it is) Mr. Moore was too good." We do not believe a more charitable man ever lived and his passing away, though he had lived far beyond man's allotted years of three score and ten, brings sorrow not only to members of his immediate family and other relatives, but to a very wide circle of friends. Mr. Moore was a gentleman of the old school, and a member of the Christian church, an indulgent father, a good neighbor and a true friend. His wife to whom he was so much devoted, died several years ago. He is survived by six daughters: Mrs. John M. Helm, Brumfield; Mrs. E. C. Eubanks and Mrs. B. H. Helm, Parksville; Miss Lizzie Moore, Lincoln county; Mrs. J. C. Hart, Tennessee; Mrs. Charles Nunnally, Montant, and two sons: Mr. Will C. Moore, Lexington and Mr. Collins A. Moore, Lincoln county. afford to pay less?

For over 30 years Crossett Shoes have stood for unusually good leather—strong of body, fine in grain. That is what has given them their superior wearing qualities.

Today such leather can be used only in shoes costing at least \$7.50 to \$12.

Men pay more attention to values than they used to. They find that shoe dollars go further in a high-type shoe like Crossetts.

The shoe below is a fine example of Crossett style and comfort. Let us show it to you.
